1 x FRAME, FORK AND
REAR WHEEL

1 x FRONT WHEEL

1 x HANDLEBAR

1 x SADDLE

2 x FOOT ANTI-SLIP
STICKER

1 x MANUAL

REQUIRED TOOLS:

Using tools and performing mechanical work always poses a risk of injury. Therefore always use suitable high-quality tools. Be careful when assembling/disassembling the product to prevent injuries.

HEXAGON KEY
KEY-WIDE 6/8

ASSEMBLY:

1. SADDLE

! The saddle height must be adjusted in such a way that the child's feet can be placed on the ground with the legs slightly bent.

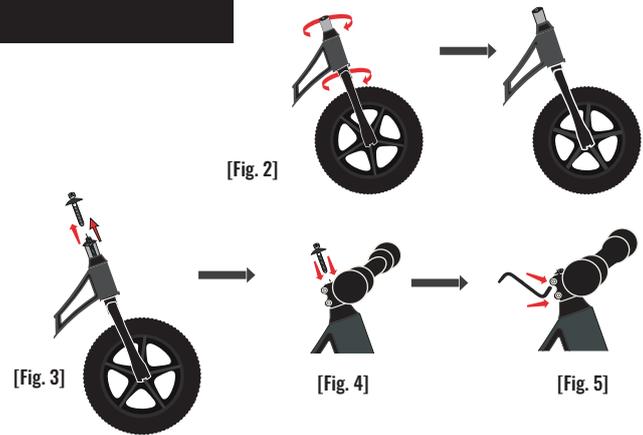

! Please observe the "Minimum Insert" on the seatpost, as this marks the minimum insertion depth. Under no circumstances may the saddle be attached at a higher position than this.

Position the saddle on the seat tube at a height which is suitable for the child. Ensure that the saddle does not shift. Unlock the quick release and adjust the saddle to the desired position and then lock the quick release.

! The saddle must be secure and not be able to move.

2. HANDLE-BAR

ADJUSTABLE RISER HANDLEBAR WITH GRIPS FOR CHANGING HANDLE GRIP POSITION, WHETHER YOUR LITTLE BABY NEEDS A LONGER REACH OR A PERFECT POSITION.

Turn the handlebar stem including the front wheel by 180 degrees, until the stem clamp points forward [Fig. 2]. The two bolts on the stem clamp and the front wheel should point straight forward. If this is not the case, loosen the bolt on the fork stem [Fig. 3] using a hex key [6mm] and take out of the screw and cap.

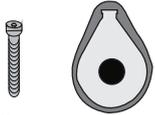

Place the handlebar and be sure that the handlebar is positioned in the center. Place the cap the screw onto the handlebar [Fig. 4] and tighten the two screws [Fig. 5] with a hex key [6 mm].

! All components must be secure and the handlebar can't move independently of the front wheel!

3. TYRE

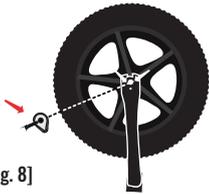

12 INCH BMX STYLE WHEELS WITH EVA (FOAM) OR AIR (PNEUMATIC) TYRES

[Fig. 6]

[Fig. 7]

[Fig. 8]

[Fig. 9]

Take out the screws (2 sets) [Fig. 6], turn the bike upside down and put on the ground.

Put the wheels into the front fork leg. Two wheels are identical, please make sure each tyre pattern is in the right direction [Fig. 7].

Then align the screw at the screw holes of the fork [Fig. 8] and use the hexagon wrench to tighten each screw [Fig. 9].

WARNING:

- Regularly check that nuts / bolts for tightness
- EVA (FOAM) tyres don't need inflating and maintenance.
- This balance bike should only be cleaned using a damp cloth – please do not use any chemical cleaners as these may damage the bike
- This balance bike should be protected from rain and snow
- Do not store the item in a damp environment as this will be detrimental to quality.
- This balance bike does not contain a braking system. Your child should carefully use their feet to stop the bike.
- This balance bike is designed to carry the weight of only one child at a time, weighing less than 50kg.
- Rough use can cause damage to the paintwork.
- Do not use this balance bike if any parts are broken or missing and use only replacement parts supplied by the manufacturer or distributor.

CAUTION: This product contains small parts which are necessary for assembly. Prior to and during assembly of this product, keep small parts out of children's reach. Small parts pose a choke hazard to children under 2 years.

ADULT ASSEMBLY REQUIRED

**ALWAYS WEAR A HELMET
AND PROTECTIVE EQUIPMENT!**

SAFETY:

ALWAYS: make sure your child wears a helmet, gloves, elbow and kneepads can help too.
